25X1

1. The oil fueling station which is used by small naval vessels is situated in the northeast part of the English Wharf at Gdynia where the Polmin tanks were formerly located. Six small naval vessels, six or seven meters long, have been seen at the fueling station, which is in frequent use, at one time.
2. The oil fueling station consists of three camouflaged tanks about four meters high and of lesser diameter.
3. The area containing the fueling station is surrounded by barbed wire, and a notice forbidding unauthorized entry is placed at the entrance gate.
